PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer with ~2 years of experience building scalable web applications. Strong proficiency in Python (FastAPI/Flask), React, and PostgreSQL. Experienced in developing RESTful APIs, optimizing database queries, and delivering responsive frontend interfaces. Passionate about building secure, high-performance systems in fintech environments.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Flask, FastAPI
Database: PostgreSQL, MySQL
Tools & Technologies: Git, GitHub, Docker (basic), Postman
Concepts: REST APIs, Authentication (JWT), MVC Architecture, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer

XYZ Tech Solutions Pvt. Ltd., Jaipur
June 2024 – Present

- Developed and maintained REST APIs using FastAPI for a payment gateway handling 10K+ daily transactions
- Built responsive React dashboards for merchants to track transactions and settlements
- Optimized PostgreSQL queries, reducing API response time by ~30%
- Implemented JWT-based authentication and role-based access control

- Collaborated in Agile sprints, participated in code reviews, and maintained documentation
-

Junior Web Developer

CodeBridge Technologies, Remote

Jan 2023 – May 2024

- Built reusable React components for financial reporting dashboards
 - Designed and consumed REST APIs using Flask backend
 - Wrote complex SQL queries for transaction analytics and reporting
 - Used Git for version control and followed feature-branch workflow
 - Assisted in debugging production issues and improving performance
-

PROJECTS

Payment Processing System (Mini FinTech Project)

- Built a full-stack payment system using FastAPI and React
 - Features: transaction processing, user authentication, and reporting dashboard
 - Integrated PostgreSQL for storing transaction data
 - Implemented REST APIs with secure endpoints
-

Merchant Dashboard Web App

- Developed a React-based dashboard to visualize transaction trends
 - Integrated backend APIs for real-time data updates
 - Improved UI performance and responsiveness
-

EDUCATION

B.Tech in Computer Science & Engineering

Manipal University Jaipur

2022 – 2026

CERTIFICATIONS

- Full Stack Web Development Certification
 - SQL and Database Design (Intermediate)
-

ACHIEVEMENTS

- Improved backend API efficiency by 30% through query optimization
 - Built scalable modules used in production by multiple clients
 - Active contributor to team code reviews and sprint planning
-

ADDITIONAL INFORMATION

- Strong understanding of HTTP protocols and REST principles
- Familiar with API security best practices
- Comfortable working in collaborative team environments using Git
